

Gas Goes Green Review Group membership list

The Gas Goes Green Review Group is a closed group of industry representatives and experts, selected and invited by ENA. The Review Group will meet twice a year and the objective of these meetings is to benefit from stakeholder views on the UK gas network transition by collecting members:

- Advice on programming and scoping of future Gas Goes Green activities
- Feedback on Gas Goes Green outputs and draft deliverables

The purpose of the Review Group is to:

- Help shape the direction and priorities of the Gas Goes Green programme, as well as looking at some of ENA’s wider gas programme activities
- Provide input to the Programme Steering Group on programme scope, progress, risks and issues
- Provide feedback on programme outputs and draft deliverables

More information is available via the Review Group [Terms of Reference](#) and the current membership list is below.
